

Allomatic Steel Plates

Allomatic steel clutch plates are high quality, application-engineered products at a price you can afford. Manufactured with attention to critical tolerances and quality control, our steel plates meet or exceed OE specifications and have a superior surface finish that supplies a greater apply area and friction clutch life. Allomatic steel plates give better shift performance and clutch durability, lowering noise and shudder, extending the life of your transmission.

FEATURES & BENEFITS

OE thickness for maximum heat sink

Superior surface finish for greater apply area and friction clutch life

Meets OE specifications for flatness and parallelism

Flawless fit without binding

Better shift performance and clutch durability

Extended transmission life

Engineered heat sink for longer clutch life

MADE IN THE USA
