

Single composite housing
withstands heating and cooling
to remain leak-free for the life
of the filter

The only patented, 100% sealed,
never-leak transmission filters

Premium filtration media
ensures maximum protection
from debris

FILTERTEK™ FILTERS

Filtertek™ is recognized for manufacturing 100% sealed, **never-leak** transmission filters. Through its alliance with Filtertek™, Raybestos Powertrain is the aftermarket distributor of these high-quality all plastic injection molded filters. These OE filters are manufactured for General Motors and Ford Motor Company's late model automobiles and trucks. Filtertek™ is OE on 4L60E, E40D, 5R55N, CD4E and 4T40E filters. Quality is assured by Filtertek™'s QS 9000 certification.

FEATURES

- Patented 100% sealed never-leak filters
- Vibration welded seam for maximum strength
- OE media filtering to 60 microns
- High-strength heat resistant plastic with 33% glass content
- QS 9000 certified
- Made in the U.S.A.

BENEFITS

- Recyclable
- Impact resistant
- All-plastic design is leak-free for the life of the filter
- Premium filter media offer maximum protection from debris
- Single composite design is unaffected by heating and cooling during normal use
